Timeview

In September 2023, a survey was conducted asking participants about their level of concern regarding a potential U.S. auto union (UAW) strike. The majority of respondents, 45.4%, reported that they were not at all concerned. On the other hand, 27.6% of respondents were somewhat concerned, while 13.3% were very concerned about the potential strike. Notably, 13.8% of respondents hadn't heard of the potential UAW strike.
