Poll unit admin tool

03/25/2025 10:08 am EDT

After the poll unit is installed on your site, you may manage the instance through the poll unit administration tool. To do so, you must be logged in to the InsightStore.

The poll unit administration controls are displayed at the lower right corner of the poll.

The triangle in the lower right corner controls the positioning of the poll unit. It also has functions that permit you to test the poll unit's question and answer option display.

The gear icon permits you to pin questions.
