

# Export data from a crosstab

02/06/2025 2:11 pm EST

To export the data from a crosstab, use the export button in the upper right corner.

You'll be presented with this modal:

When you click the blue *Export* button, your file will download. The file will be named *crosstab name time date.xls*. For my *Gender/Favorite Color* crosstab, the export file is named *Gender\_Favorite Color 15\_05\_17 21-11-2023.xls*. (The time is in UTC.)

The exported file will contain several tabs.

The first tab, *Settings*, shows basic information about the crosstab including:

- title
- time and date the crosstab was generated
- username of the user who generated the crosstab
- URL for the crosstab
- the weighting scheme (if any)
- questions in the rows, with filter segment and date range
- questions in the columns, with filter segment and date range
- number of responses
- significance ( $\chi^2$  with df)
- p-value
- strength of association (T-coefficient)
