

Cloning a MultiTimeview report

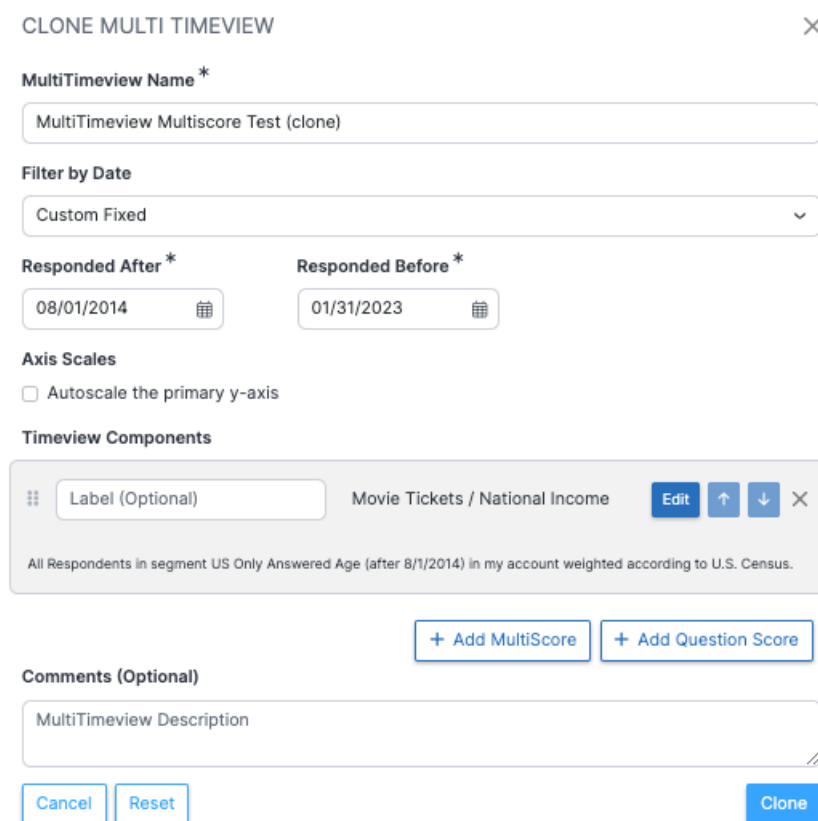

04/01/2025 4:40 pm EDT

To clone a MultiTimeview report, choose the *Settings* tab and scroll all the way to the bottom to use the *Clone* button. If you do not see that button, you do not have edit permissions for the report in question.

This screenshot shows the settings form for a MultiTimeview report. At the top right, there are two buttons: "+ Add MultiScore" and "+ Add Question Score". Below these is a section titled "Comments (Optional)" containing a text input field labeled "MultiTimeview Description". At the bottom left of this section are "Delete" and "Reset" buttons. At the bottom right are "Clone" and "Update" buttons.

After clicking the *Clone* button, you'll see this screen:

This screenshot shows the "CLONE MULTI TIMEVIEW" dialog box. It has a title bar with a close button (X). The form includes: a "MultiTimeview Name *" field with the value "MultiTimeview Multiscore Test (clone)"; a "Filter by Date" dropdown menu set to "Custom Fixed"; "Responded After *" and "Responded Before *" date pickers with values "08/01/2014" and "01/31/2023" respectively; an "Axis Scales" section with an unchecked checkbox "Autoscale the primary y-axis"; a "Timeview Components" section showing a list item "Label (Optional)" with "Movie Tickets / National Income" and buttons for "Edit", up/down arrows, and a close button; a descriptive text line: "All Respondents in segment US Only Answered Age (after 8/1/2014) in my account weighted according to U.S. Census."; and two buttons at the bottom right: "+ Add MultiScore" and "+ Add Question Score". At the very bottom are "Cancel", "Reset", and "Clone" buttons.

Make any desired changes, then click *Clone*.
