

Filtering a MultiTimeview report

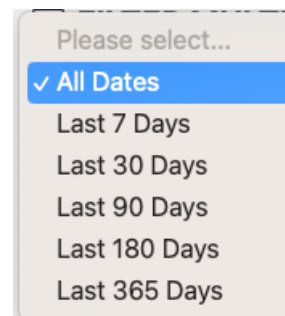

04/01/2025 4:44 pm EDT

To filter a MultiTimeview report, open the report to its *Results* tab. Click on the *FILTER MULTITIMEVIEW* dropdown.

The screenshot shows the top section of a report titled "Wellbeing Index". At the top left, there is a link "« Back To Reports". Below the title, there is a dropdown menu labeled "FILTER MULTITIMEVIEW" with a small information icon to its right. The dropdown is currently set to "All Dates". To the right of the dropdown are two buttons: "Reset" and "Apply". Below the dropdown, there are two tabs: "Results" (which is highlighted with a blue border) and "Settings" (with a gear icon).

Select one of the options and hit *Apply*.

The screenshot shows the dropdown menu options for the "FILTER MULTITIMEVIEW" dropdown. The options are: "Please select...", "✓ All Dates" (which is highlighted with a blue background), "Last 7 Days", "Last 30 Days", "Last 90 Days", "Last 180 Days", and "Last 365 Days".
