

Sharing Engagement Questions on Social Media

11/13/2023 12:11 pm EST

It is very easy to share [engagement questions](#) on social media. Doing so is a great way to drive traffic from your social media to your poll question.

Simply go to the page where your poll is posted and click on the kebab menu (the three dots at the upper right). A menu will slide out. *Share* is the last menu item.

When you click on *Share*, a field will open showing you the link to share manually and three icons that will allow you to post the link to Twitter, Facebook, or LinkedIn.

This video goes over the process.
