

Creating User Groups in IS1

11/13/2023 2:16 pm EST

To create a *User Group*, click *Settings* in the top navigation bar, then *Account*, then *User Groups*.

Click *+ Add User Group* and provide a *User Group Name*, then select the members of the group and a role for each member. Admins can add and remove members from the group.

When you've selected all the members and their roles, click *Save*.
