

# Deleting a Scorecard

11/17/2023 11:31 am EST

Click on the *Scorecard* tab, then the *Settings* tab, then the *Definition* tab. At the bottom of the *Definition* tab, there's a link you can use to delete the scorecard. Be very careful here, as there's no way to recover a deleted scorecard. If you delete the scorecard, it is deleted for all users.
