

# Editing a Scorecard

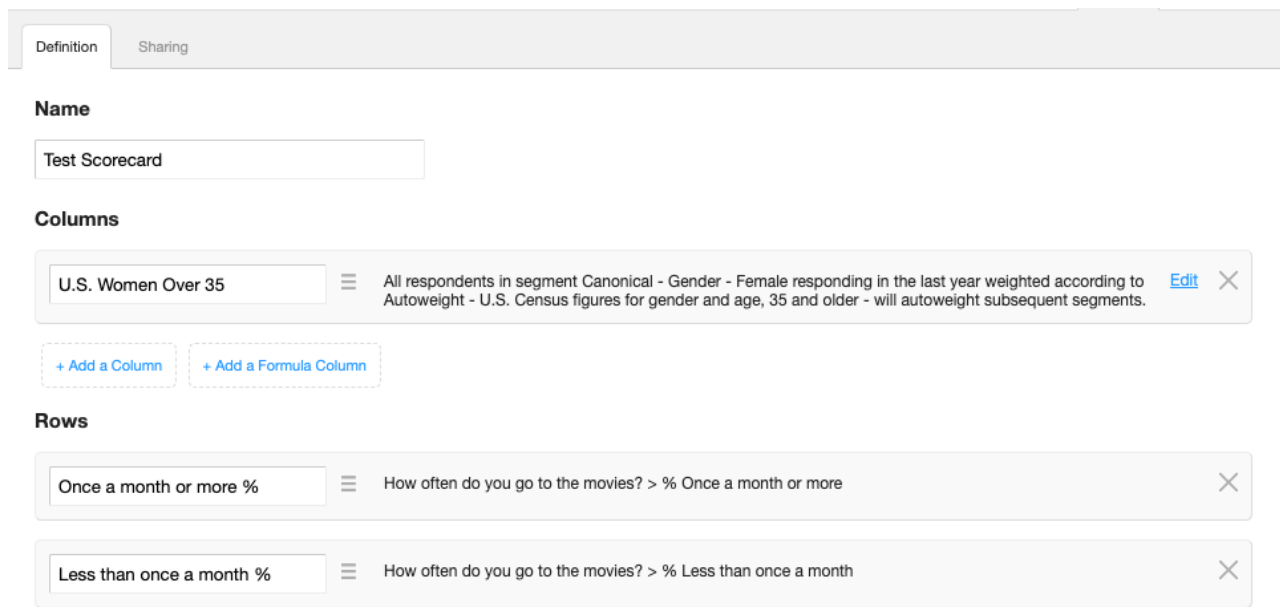

11/17/2023 11:38 am EST

To edit the scorecard, select the *Settings* tab.

The screenshot shows the 'Test Scorecard' interface. At the top right, there is a 'Clone' button. Below the title 'Test Scorecard', there are two tabs: 'Settings' and 'Scorecard'. The 'Scorecard' tab is active. In the top left of the scorecard area, there are 'Scorecard' and 'Download' buttons. Below this, there is a 'Display Mode' dropdown menu set to 'Scorecard Table'.

You can edit the scorecard on the *Definition* tab.

The screenshot shows the 'Definition' tab of the scorecard editor. It has two tabs: 'Definition' and 'Sharing'. Under the 'Name' section, there is a text input field containing 'Test Scorecard'. Under the 'Columns' section, there is one column defined: 'U.S. Women Over 35'. The description for this column is 'All respondents in segment Canonical - Gender - Female responding in the last year weighted according to Autoweight - U.S. Census figures for gender and age, 35 and older - will autoweight subsequent segments.' There are 'Edit' and 'Close' (X) buttons for this column. Below the column list are two buttons: '+ Add a Column' and '+ Add a Formula Column'. Under the 'Rows' section, there are two rows defined. The first row is 'Once a month or more %' with the description 'How often do you go to the movies? > % Once a month or more'. The second row is 'Less than once a month %' with the description 'How often do you go to the movies? > % Less than once a month'. Both rows have 'Close' (X) buttons.
