

Moving from InsightStore 1 to InightStore 2 for data clients

01/15/2025 1:37 pm EST

Welcome to InsightStore 2!

You don't need to do anything other than update your bookmarks. The address for IS2 is <https://insightstore.civicscience.com>. All your reports and dashboards are still here. IS2 makes it easier to access them, with more transparent navigation and better filters.

You'll be on the [IS2 landing page](#) when you log in. It collects resources such as syndicated and industry dashboards and our most recent news and insights articles.

You'll quickly notice that instead of having the menus at the top of the screen, there are links to primary areas in the [left navigation pane](#).

Once you get into those areas, you'll find expanded filtering possibilities. For example, you can filter dashboards by date, apply a segment, or apply a weighting scheme. You can [filter the list of questions](#) by type, permissions, favorites, timing, format, dates, responses, tags, or taxonomy. We've added many filters on the [question details page](#), and we expanded the search filters available on the [question compare page](#).

The [segment](#) search has also been improved significantly. And you can favorite segments!

We added [crosstabs](#) in IS2. They are a powerful tool for exploring data.

You will also find a link to [Sage](#), our AI insights assistant in the [navigation pane](#).
