

# Moving from InsightStore 1 to InsightStore 2 for media partners

01/15/2025 1:53 pm EST

Welcome to InsightStore 2!

You don't need to do anything other than update your bookmarks. The address for IS2 is <https://insightstore.civicscience.com>. All your reports and dashboards are still here. IS2 makes it easier to access them, with more transparent navigation and better filters.

You'll be on the [IS2 landing page](#) when you log in. It collects resources such as syndicated and industry dashboards and our most recent news and insights articles.

You'll quickly notice that instead of having the menus at the top of the screen, there are links to primary areas in the [left navigation pane](#).

Once you get into those areas, you'll find expanded filtering possibilities. For example, you can [filter dashboards](#) by date, apply a segment, apply a weighting scheme, or use target and network filters. There are new fields available to you in some [dashlets](#), as well.

We've added target and network filters to [multiscore](#) and [multitimeviewreports](#).

We added [crosstabs](#) in IS2. They are a powerful tool for exploring data.

You can [filter the list of questions](#) by type, permissions, favorites, timing, format, dates, responses, tags, or taxonomy. We've added many filters on the [question details](#) page, and we expanded the search filters available on the [question compare](#) page.

The [segment](#) search has also been improved significantly. And you can favorite segments!

You will also find a link to AudienceLens, our consumer insights tool, in the [navigation pane](#).
