

Default account/organization settings

03/21/2025 10:07 am EDT

The account/organization's *Default Weighting Scheme* can be changed on the *Default Settings* page. *Please speak with your account manager before making any changes here.*

This weighting scheme will be applied when an account member doesn't specify a weighting scheme.

The screenshot shows a web interface for profile management. At the top left is the title "Profile". At the top right, it says "Logged in as [redacted] for organization [redacted]". Below the title are two tabs: "Your Account" and "Your Organization", with "Your Organization" being the active tab. On the left side, there is a vertical menu with the following items: "Basic Information", "Users", "User Groups", and "Default Settings" (which is highlighted with a blue underline). The main content area is a modal window titled "DEFAULT SETTINGS" with a sub-heading "Default Weighting Scheme". It contains a dropdown menu currently set to "Autoweight - U.S. Adults". At the bottom of the modal are two buttons: "Cancel" and "Save".
