

Deleting a question

06/24/2025 3:14 pm EDT

Before a question receives any responses, it can be deleted by an [administrator](#). To do so, go to *Question > Settings > Edit*.

If I wanted to delete question xxxxxx, I would go to <https://insightstore.civicscience.com/questions/xxxxxxx/settings/edit> (replace xxxxxx with the [QID](#)).

Scroll down the page and click *Delete*.

When a question is deleted, it cannot be recovered.
