

# Deleting a question

04/03/2026 9:45 am EDT

Before a question receives any responses, an [administrator](#) can delete it. To do so, go to *Question > Settings > Edit*.

If I wanted to delete question xxxxxx, I would go to <https://insightstore.civicscience.com/questions/xxxxxx/settings/edit> (replace xxxxxx with the QID).

Scroll down the page and click *Delete*.

If a question is deleted, it cannot be recovered.
